

FlaxSheen® Hoof Sense

Based on Canola Oil
to Nourish and Protect

FlaxSheen® Hoof Sense is a stimulating balm which is rich in Vitamin E and Essential Fatty Acids due to its canola oil base. This balm helps to promote the growth of healthy hooves when it is massaged gently into the hair line around the hoof. FlaxSheen® Hoof Sense will also provide a breathable barrier when applied directly to the hoof, which will moisturize, shine, and seal the hoof to keep excess moisture out (i.e. from mud, excess rain, etc). Use this product regularly to help promote healthy growth of your horses hooves and to keep cracks from forming. FlaxSheen® Hoof Sense can also be used as a natural alternative to traditional polishes when preparing to show your horse. This product is safe for use on animals and humans.

Contains:

Canola Extract
Tea Tree Extract
Peppermint Extract
Soybean Extract

Benefits of Choosing Hoof Sense:

- Uniquely Canadian 
- Natural alternative to traditional petroleum based hoof balms
- Helps to moisturize and prevent cracking
- Provides a protective barrier to harmful weather conditions
- Provides a natural shine to hooves
- Promotes growth of healthy hooves
- Contains natural antibacterial properties
- Rich in Vitamin E, Omega-3 and Omega-6
- Mild and soothing scent
- Safe for use on dogs
- Non-toxic
- Created by a certified Equine Science graduate for people with a passion for both horses and aromatherapy

Testimonial:

“Hoof Sense conditioner is great! Easy to apply... not greasy or oily. I used it for a week on Flip’s front hooves and they are in much better shape. They have a nice finish and his heels are healthy looking... even in this damp weather!”

V. Findlay
